

NASA Travel Poster

Objective // To create a travel poster depicting what your dwarf would look like if you could travel there highlighting its unique characteristics.

Method // Google Draw or Paper poster

Research // To depict a dwarf planet's uniqueness you will need to research the planet to find the following information

(<https://solarsystem.nasa.gov/kids/index.cfm#>):

Name of dwarf planet	
Composition	
Location (Asteroid belt or Kuiper belt)	
Size // diameter and mass	
Distance from the sun	
Topography ~ surface features	
Atmospheric gases	
Rotation & Revolution period	
Moons/Rings	
Unique facts about the dwarf planet	
Discovery/Name origin	

Conclusion // Explain the design of your planet poster (why does it look the way it does; color, style, features, background elements?)
