

# NASA Travel Poster

Objective // To create a travel poster depicting what your exoplanet would look like if you could travel there highlighting its unique characteristics.

Method // Google Draw or Paper poster

Research // To depict a planet's uniqueness you will need to research the planet to find the following information (<https://solarsystem.nasa.gov/kids/index.cfm#>):

<b>Name of planet</b>	
<b>Type // gas or terrestrial</b>	
<b>Location // inner or outer</b>	
<b>Size // diameter and mass</b>	
<b>Distance from the sun</b>	
<b>Topography ~ surface features</b>	
<b>Atmospheric gases</b>	
<b>Rotation &amp; Revolution period</b>	
<b>Moons/Rings</b>	
<b>Unique facts about the planet</b>	
<b>Discovery/Name origin</b>	

Conclusion // Explain the design of your planet poster (why does it look the way it does; color, style, features, background elements?)
